NDIA
National Defense Industrial Association

As a Washington Test & Evaluation professional engaged in addressing and advancing the knowledge and capabilities of our community, this is a forum that is well worth your attending and participation. Our chapter has been, and continues to be, a longtime supporter of encouraging test and training professionals to increase their collaboration on range and instrumentation usage and development. The Forum will include in its program, leaders from DoD in Washington, senior range operators, and industry experts missions across the Services from both the Testing and Training communities
